

Class Description:

Butterfly Hinge Chain

This bracelet takes flight with a handmade hinge finding! Coil, weave and wrap butterfly hinges, then scroll heavy wire for lacy "wings". Transform a few basic findings, a splash of beads for color, wire and more wire into a textured, scrolled and elegantly articulated bracelet.

Intermediate Level: Students should know how to wire wrap, make a spiral, coil, and how to open and close jump rings. Students will be expected to make a coil before class on a mandrel (provided by the instructor).

Class Running Time: 6 hours

Kit Fee: \$3 for 3 steel mandrels
