

Class Description:

Pivoting Pinwheel Chain

Combine technique and design in the construction of a detailed, movable chain necklace. Learn a to weave a round, pinwheel bead component with small beads and wire and how to turn it into a pendant. Discuss coiling and get an overview on different tools. Cut great jump rings, turn beautifully matched loops, and move it all with a pivot crossbar. Engineer a curve for optimized fit and comfortable wear. A great class to fine tune wirework and design skills.

Prerequisite: *Beginning wirework class, familiarity with basic wire work, and/or practice.*

Class Running Time: 6 hours

Kit Fee: \$10 for a 13" sterling coil

Wire coilers, winders, twisters, jeweler's saws and appropriate safety equipment are encouraged.
