

Class Description:
Wire Framed Cuff

Create this attention-getting bracelet and make everyone think you're a metalsmith. Outline provided frame segments with heavy gauge wire; wind and cut truly good jump rings; add findings; and stitch your way to a unique jewelry creation. This cuff is a great exercise in wirework, design, and jewelry construction—all with no soldering!

Kit fee: \$8

I recommend that students be familiar with my technique before taking this class, but it is not a prerequisite.

Class Running Time: 6 hours
